Other sources	 SEC Belt Activity report 2004 (103 kB)  The Safety of Vulnerable Road Users in the Southern, Eastern and Central European Countries (274 kB)

The aim of this ETSC-Project is to improve road safety in the **S**outhern, **E**astern and **C**entral European countries by **identifying, evaluating** and **promoting** measures for the accident risk reduction of road users. The countries within this Belt comprise Italy, France, Belgium, Cyprus, Malta, Portugal, Slovenia, Spain, Czech Republic, Greece, Hungary, Poland, Slovakia and the Baltic States – these are all countries that display death rates per billion motor vehicle km above the EU average. The project will last for 3 years.
