## TEN D BY NIGHT

TEN D BY NIGHT Dark, Dance, Disco, Dose, Drugs, Drive, Danger, Damage, Disability, Death

Project details	
Domain	Training, education and campaigns
Duration	from 01/03/2008 until 28/02/2010
Website	<a href="http://www.tendbynight.eu">http://www.tendbynight.eu</a>
Other sources	<a href="#">Executive Agency for Health and Consumers</a>

The strategic aim of TEN D project is to define a European approach in order to contribute to the reduction of the number and seriousness of road accidents, in particular the ones in which young people are involved, that occur during weekends and can be correlated with the consumption of alcohol and psychoactive substances.

In order to achieve the above the following methodology will be used: dissemination of informative and awareness-raising material, installation of information points in young people's recreational meeting places, administration of a anonymous questionnaire, performance of anonymous alcohol/substances tests, measurement reaction times in driving and comparison between the results of such measurement and data from both the questionnaire and alcohol/substances tests.

The monitoring foreseen within the project and the information produced will represent very important items to define intervention policies both at National and European level and they will be characterized by a valuable technical and scientific support, useful to delineate new intervention fields.
