LIFESAVER

Crossing borders to save lives on European roads

Project details	
Domain	Training, education and campaigns
Duration	from 01/06/2008 until 31/05/2011
Website	
Other sources	 Final report (5.6 MB)

A project in which police officers of six Member States, namely Hungary, Poland, Portugal, Romania, Slovenia and Spain are being 'mentored' with the aim to improve the behaviour of road users and operators in traffic.

This will be achieved through research, the sharing of good practice and providing support for the road traffic police in these countries. It involves operations of coaching, training and learning at the levels of senior staff at strategic level, middle managers and operational road policing officers. A Traffic Enforcement Handbook for operational road policing officers of all TISPOL countries will instruct those officers on enforcement work in a safe, efficient and effective manner and describe good operational practice from all over Europe as well as providing check lists for operational traffic police officers in their day-to-day enforcement work.
