## 1 Introduction

### 1.1 The CARE Database

Community database on **A**ccidents on the **R**oads in **E**urope

Road traffic accidents in the Member States of the European Union claim about 25.600 lives and leave more than 1,4 million people injured in 2016. Since 1984, a large number of measures to reduce road accidents have been taken at regional level. Along with these measures, the Council adopted a Decision on 30 November 1993 on the creation of a Community database on road accidents (93/704/EC)<sup>1</sup>, the CARE project.

It was commonly agreed that such a database at the Community level would make it possible to identify and quantify road safety problems, evaluate the efficiency of road safety measures, determine the relevance of Community actions and facilitate the exchange of experience in this field. After a pilot phase of about 3 years, the Council endorsed the “Report from the Commission on the progress with the project and its future prospects” (COM(97) 238 final).

CARE is a Community database on road accidents resulting in death or injury (no statistics on damage-only accidents are kept). The major difference between CARE and most other existing international databases is the high level of disaggregation, i.e. CARE is based on detailed data of individual accidents as collected by the Member States. This structure allows for maximum flexibility and potential with regard to analysing the information contained in the system and opens up a whole set of new possibilities in the field of accident analysis.

National data sets are integrated into the CARE database in their original national structure and definitions, with confidential data blanked out. However, transformation rules are implemented in the CARE database in order to increase data compatibility and thus enhance the functioning of the system.

The process of improving “homogenisation” of accident data within CARE is underway. In the meantime, the inherent incompatibility of national accident data remains a source of possible misinterpretation when performing comparative analyses at international level. Therefore, on-line access to the CARE database is currently restricted to expert users. The summary statistical tables and figures contained here provide an overview of road accident data from 2007 to 2016. For some figures other sources than CARE have been used in order to give an overview of EU road accident data.

---

## 1.2 Notes

### 1. Country abbreviations

	Belgium	BE		Italy	IT		Romania	RO
	Bulgaria	BG		Cyprus	CY		Slovenia	SI
	Czech Republic	CZ		Latvia	LV		Slovakia	SK
	Denmark	DK		Lithuania	LT		Finland	FI
	Germany	DE		Luxembourg	LU		Sweden	SE
	Estonia	EE		Hungary	HU		United Kingdom	UK
	Ireland	IE		Malta	MT			
	Greece	EL		Netherlands	NL		Iceland	IS
	Spain	ES		Austria	AT		Liechtenstein	LI
	France	FR		Poland	PL		Norway	NO
	Croatia	HR		Portugal	PT		Switzerland	CH

### 2. Sources: CARE (Community database on road accidents)

The glossary of definitions of variables used in this Report is in the appendix, the full glossary is available at: [http://ec.europa.eu/transport/road\\_safety/sites/roadsafety/files/cadas\\_glossary\\_v3.pdf](http://ec.europa.eu/transport/road_safety/sites/roadsafety/files/cadas_glossary_v3.pdf).

### 3. Data available in May 2018.

4. Data refer to 2016 and when not available the latest available data are used (2010 data for SK, 2014 data for IE and 2015 data for BG, EE and LT). Totals and related average percentages for EU also include latest available data.

5. This 2018 edition of Annual Accident Report updates the previous versions produced within the EU co-funded research projects SafetyNet and DaCoTA under the name Annual Statistical Report.

### 6. Disclaimer

This report has been produced by the National Technical University of Athens ([NTUA](#)), the Austrian Road Safety Board ([KFV](#)) and the European Union Road Federation ([ERF](#)) under a contract with the [European Commission](#). Whilst every effort has been made to ensure that the matter presented in this report is relevant, accurate and up-to-date, the Partners cannot accept any liability for any error or omission, or reliance on part or all of the content in another context. Any information and views set out in this report are those of the author(s) and do not necessarily reflect the official opinion of the Commission. The Commission does not guarantee the accuracy of the data included in this study. Neither the Commission nor any person acting on the Commission's behalf may be held responsible for the use that may be made of the information contained therein.

### 7. Please refer to this Report as follows:

## 5 Glossary

The CARE glossary provides short definitions for variables used in the Annual Statistical Report, and includes short definitions of CARE common values.

The glossary has two components:

- a) A **definition** of the common value
- b) The **availability** of the common value in the data file for each Member State.

### ACCIDENT

#### **ACCIDENT**

Definition: Occurs on a public road. Occurs on a private road to which the public has right of access (except BE, NL, PT). Involves at least one moving vehicle (except UK, PT). Involves at least one injured or killed person. Is reported by the police. Self reporting possible (BE, UK, EL, IT, IE). Self reporting not possible (DK, FI, NL, AT, PT). Confirmed suicides excluded (BE, UK, IE, NL, AT, DK, PT). Confirmed suicides included (ES, IT, LU).

Note: The variation in the groups of road and the coverage of the injury categories included in injury accidents, together with differences in the level of self reported accidents, will lead to significant variations in the number of injury accidents reported, and their reporting rate, between Member States.

#### **FATAL ACCIDENT**

Definition: Accident with at least one killed person regardless the injury severity of any other involved persons.

Note: See “killed” definition from Injury Severity defined in Person type item (Death within 30 days of a road accident [UN/ECE Geneva 1995 – Statistics of Road Traffic Accidents in Europe and North America], except AT [3 days before 1992], ES [24 hours in CARE; 24 hours before 1993 in publication], FR [6 days], EL [24 hours], IT [7 days], PT [24 hours]. Suicide not included [except DK, ES, FR]. Natural death not included [except LU, SE]).

Data availability: All countries

### TIME TYPE ITEMS

#### **MONTH**

Definition: Calendar month

Data availability: All countries (except DK)

#### **HOURLY**

Definition: Period of 60 minutes. Rounded down to whole hours (except EL, ES, IT: rounded to nearest hour).

Note: Winter time is:

- GMT from November to March (DE from 1996 onwards, GB, IE, NI, PT)
- GMT +1 hour from October to March (BE, AT, DK prior to 1996, DK, ES, FR, IT, LU, NL, SE)
- GMT +2 hours from October to March (EL, FI).

Summer time is one hour ahead of winter time:

- GMT +1 hour from April to October (DK from 1996 onwards, GB, IE, NI, PT)
- GMT +2 hours from April to September (AT, BE, DK prior to 1996, DK, ES, FR, IT, LU, NL, SE)
- GMT +3 hours from April to September (EL, FI)

For PT, unknown hour coded as '12' during daytime and '0' during night time

Data availability: All countries (except DK)

## **DAY OF WEEK**

Definition: 24 hour day within 7 day week.

Note: Data calculated by the CARE system from the date of accident, where data is not available in national files (AT from 1992 onwards, BE, FR prior to 1993, PT, SE).

Data availability: All countries.

## **ROAD USER TYPE**

### **DRIVER**

Definition: Person driving or riding any motorised vehicle or pedal cycle. Person herding animals is not a driver (except BE, AT). Learner driver is a driver (except ES, PT). Learner driver is a driver during a driving test, but not in a driving lesson (DK). Driving instructor is not a driver (except ES, PT). Driving instructor is a driver during a driving lesson, but not during a driving test (DK).

Note: Uninjured drivers are included in the database (except GB, NI, NL: implicitly included in vehicle records only). Data on driving instructors and learner drivers collected separately from 1993 onwards (SE).

Data availability: All countries.

### **PASSENGER**

Definition: Person on or in a vehicle, who is not the driver. Includes person in the act of boarding or alighting from a vehicle (except DK). Learner driver is not a passenger (except ES, PT). Learner driver is a passenger during a driving lesson, but not during a driving test (DK). Driving instructor is a passenger (except ES, PT). Driving instructor is a passenger during a driving test, but not in a driving lesson (DK).

Note: Uninjured passengers not included in the database (except FR, IE, LU; ES, FI in some cases, AT).

Data availability: All countries.

### **PEDESTRIAN**

Definition: Person on foot. Person pushing or holding bicycle (except DK). Person pushing a pram or pushchair. Person leading or herding an animal (except DK, AT). Person riding a toy cycle on the footway (except AT). Person on roller skates, skateboard or skis (except AT). Does not include person in the act of boarding or alighting from a vehicle (except DK, ES).

Note: Uninjured pedestrians not included in the database (except BE, IE, LU, NL implicitly included in element records; DK, FR, FI, AT, SE if they caused the accident; ES not consistently).

Data availability: All countries.

## **TYPE OF INJURY**

### **INJURED**

Definition: Injured with application of correcting coefficient as stated for the 'Killed at 30 days'. Injured in a road accident. Hospitalisation or medical treatment not necessarily required (except FR). Self declaration of injury (DK if slight; FI, GB, IT, IE, NI). Opinion of the police. Aggregation of the following injury severities: SERIOUSLYINJUREDASREPORTED + SLIGHTLY INJURED + INJURED - 1 COEFFICIENT

# Annual Accident Report 2018

Data availability: All countries

## FATALITIES

Definition: Death within 30 days of a road accident (UN/ECE Geneva 1995 – Statistics of Road Traffic Accidents in Europe and North America, annex 1). Suicide not included (except DK, ES, FR). Natural death not included (except LU, SE). Corrective factors have been applied to comply with this international definition for the following countries: EL (24 hours), ES (24 hours in CARE; 24 hours before 1993 in publication), FR (6 days), IT (7 days), AT (3 days before 1992), PT (24 hours).

Data availability: All countries.

Member State	Correcting factors		
Greece	K(30) = K * 1,18 up to 1995		
Spain	K(30) = K * 1,3 up to 1992		
	1993 up to 1996:	Outside urban area	Inside urban area
	Driver	K(30)=K+SI*2,46%	K(30)=K+SI*1,02%
	Passenger	K(30)=K+SI*2,29%	K(30)=K+SI*0,94%
	Pedestrian	K(30)=K+SI*7,22%	K(30)=K+SI*3,87%
	1997 up to 2000:	Outside urban area	Inside urban area
	Driver	K(30)=K+SI*2,44%	K(30)=K+SI*1,93%
	Passenger	K(30)=K+SI*2,17%	K(30)=K+SI*1,80%
	Pedestrian	K(30)=K+SI*4,76%	K(30)=K+SI*5,71%
	2001 up to 2004:	Outside urban area	Inside urban area
	Driver	K(30)=K+SI*2,41%	K(30)=K+SI*2,17%
	Passenger	K(30)=K+SI*2,24%	K(30)=K+SI*2,15%
Pedestrian	K(30)=K+SI*6,17%	K(30)=K+SI*4,34%	
France	K(30) = K * 1,09 up to 1993 K(30) = K * 1,057 from 1994 onwards		
Italy	K(30) = K * 1,078		
Austria	K(30) = K * 1,12 only for 1991		
Portugal	K(30) = K * 1,3 up to 1997 K(30) = K * 1,14 from 1998 onwards		
K: number of persons killed, SI: number of persons seriously injured			

## GENDER

### FEMALE

Definition: Determined by the police (except ES, IT, LU, AT, PT: on the basis of identity documents; DK, FI, SE: on the basis of personal ID number).

Data availability: All countries.

## **MALE**

Definition: Determined by the police (except ES, IT, LU, AT, PT: on the basis of identity documents; DK, FI, SE: on the basis of personal ID number).

Data availability: All countries.

## **AGE**

### **AGE**

Definition: Length of life of person. Rounded down to whole number of years (except EL, IT, NI: rounded to nearest year).

Note: Age 0 to 1 is exceptionally rounded up (FR, IT, IE, LU, NI, PT). Age over 99 only available for ES, FR (1993 on), NL.

Data availability: All countries.

## **AREA TYPE**

### **INSIDE URBAN AREA**

Definition: Area inside urban area boundary signs (except IE, UK). Includes dual carriageways and national roads. Can include motorways (except DK, EL, IT). Opinion of the police (DK, SE).

Note: Data approximated from speed limit of 40 mph or less (IE, UK).

Data availability: All countries.

### **OUTSIDE URBAN AREA**

Definition: Area outside urban area boundary signs. Opinion of the police (DK, SE). Includes motorways.

Note: Data approximated from speed limit of over 40 mph (IE, UK).

Data availability: All countries.

### **MOTORWAY**

Definition: Public road with dual carriageways, and at least two lanes each way. Entrance and exit signposted. Road with grade separated interchanges. Road with a central barrier or central reservation. No crossing permitted. No stopping permitted unless in an emergency. Entry prohibited for pedestrians, animals, pedal cycles, mopeds, agricultural vehicles; learner drivers (BE, GB, EL, IE, NI, PT). Access restricted to motor vehicles (DK, FI, AT). Minimum speed between 50 km/h and 80 km/h (except FR, UK). Maximum speed between 100 km/h and 130 km/h (except DK recommended 130 km/h).

Data availability: All countries.

## **MODES OF TRANSPORT-VEHICLE GROUP**

### **AGRICULTURAL TRACTOR**

Definition: Motor vehicle for agricultural use, with wheels or caterpillar tracks, with at least two axles. Driving licence required (DK, EL, ES, FI, GB, IT, IE, LU, AT; not in FR). Maximum speed 30 km/h or 40 km/h.

Data availability: All countries (except DK prior to 1997, AT, FR, GB, IE from 1996 onwards, LU).

Value included in another value:

agricultural machine (FR), construction or agricultural machine (DK, AT prior to 1997), agricultural or industrial tractor (LU), other motor vehicle (GB), other (IE from 1996 onwards).

## **BUS OR COACH**

Definition:

Motor vehicle with at least four wheels, used for transporting people. Public or private use. Type D driving licence required (BE, GB, IE, NI). Includes bus, more than 8 and 16 seats, minibus, trolley-bus (except LU), scheduled bus, unscheduled bus, school bus.

Data availability:

All countries.

## **CAR OR TAXI**

Definition:

Includes car, taxi. Motor vehicle with four wheels. Used to transport only or mainly people. Seating for no more than 8 passengers. Type B driving licence required. Includes taxi-bus (NL).

Data availability:

All countries.

## **HEAVY GOODS VEHICLE**

Definition:

Includes road tractor, road tractor with semi trailer, lorry over 3,5 tonnes. Motor vehicle with at least four wheels, with a permissible gross vehicle weight of over 3,5 tonnes, used only for the transport of goods. With or without a trailer. Type C driving licence required. Includes lorry, over 3,5 tonnes ; road tractor ; road tractor with semi-trailer ; lorry with trailer ; tanker (except FI).

Note:

Lorries cannot systematically be categorised as over 3,5 tonnes (DK, IT).

Data availability:

All countries (except DE, IT).

## **LORRY, LESS THAN 3,5 TONNES**

Definition:

Motor vehicle with a permissible gross vehicle weight of less than 3,5 tonnes, used only for the transport of goods. Type B driving licence required.

Note:

Lorries cannot systematically be categorised as less than 3,5 tonnes (DK, IT).

Data availability:

All countries (except DK, IT, LU).

## **MOPED**

Definition:

Motor vehicle with two wheels, with an engine size of less than 50 cc. Design speed between 25 km/h and 50 km/h. One or two seats. Minimum age for driver between 14 and 18 (except IT). No driving licence required (ES, FR, FI, GB, IT, PT, SE). Unregistered vehicle (BE, DK, ES, FR, SE).

Data availability:

All countries (except IE from 1996 onwards).

Value included in another value:

Two wheeled motor vehicle (IE from 1996 onwards).

## **MOTORCYCLE**

Definition:

Motor vehicle with two or three wheels (not three wheeled in DK), with an engine size of more than 50 cc. With a trailer possible (except DK). With a sidecar possible. Registered vehicle (except PT). Type A driving licence required. Includes motor scooter (except FR).

Data availability:

All countries (except IE from 1996 onwards).

Value included in another value: two wheeled motor vehicle (IE from 1996 onwards).

## **OTHER VEHICLE**

Definition: Includes other non-motor vehicle, other motor vehicle.

## **PEDAL CYCLE**

Definition: Vehicle with at least two wheels, without engine, moved by pedals or hand cranks. With or without a trailer. With or without passengers. Ridden in the carriageway. Ridden on the pavement (except DK, LU).

Data availability: All countries.

## **PEDESTRIAN**

Definition: Wherever a person's person class has been identified as being pedestrian, its vehicle type is "pedestrian". This as opposed to older version of CARE where a pedestrian didn't have a vehicle type.

Data availability: All countries.

## **JUNCTION TYPE**

### **JUNCTION**

Definition: Road intersection with three or more arms. Not grade separated. Includes t junction, y junction, crossroad, level crossing (except DK, FI, GB, NI), roundabout (except FR), multiple junction.

Data availability: All countries (except EL).

### **CROSSROAD**

Definition: Road intersection with four arms. Opinion of the police (DK, ES, FI; not AT).

Data availability: All countries (except BE, EL).

### **NOT AT A JUNCTION**

Definition: Position on road more than 20m from a junction or roundabout (GB, IE, NI, NL, AT). Position on road more than 50m from a junction (FR). Opinion of the police (BE, DK, ES, FI, IT, LU, SE).

Data availability: All countries (except EL).

### **ROUNDABOUT**

Definition: Circular highway. Includes sections of the road leading into it, within 20m (GB, IE, NI, AT). Opinion of the police (DK, ES, FR, IT).

Data availability: All countries (except BE, DK, EL, FI, LU, PT).

### **T OR Y JUNCTION**

Definition: Road intersection with three arms. Includes t junction, y junction, staggered junction.

Data availability: All countries (except BE, EL, FI, IT, PT).
