Brussels, 5 April 2013
Ref. No.: 1072/2013-SZEU/SEA

Jiří Veselý
Transport Attaché

Dear Mr Schmidt, *lieber Szabolcs*

with regard to the letter Ref. No.: Ares (2012)1474957 from 11 December 2012 requesting the Czech Republic to send electronically documents communicating to the Commission the text of the main provisions of national law which had been adopted in the field covered by the Directive 2008/96/EC of the European Parliament and of the Council of 19 November 2008 on road infrastructure safety management, please find attached the weblinks to all the following documents:

- a) Guidelines for Documentation on road construction
- b) The Methodology of auditing of road safety
- c) Methodology of safety inspections of roads
- d) Identification of construction sites on motorways and roads for motor vehicles – manual (free route)
- e) Identification of construction sites on motorways and roads for motor vehicles – manual (tunnels)

The Ministry of Transport would like to draw your attention on the fact that the Transport Research Centre (Centrum dopravního výzkumu, v. v. i) administers a website offering the auditors of road safety and other professionals the source of up-to-date information on the conduct of safety audits and other instruments of Directive 2008/96/EC. The website contains the definitions of these instruments, information on how to become an auditor, an appropriate methodology for download, technical information, etc. Please find this website also attached.

Yours sincerely,

Attachment:
