Other sources	 <a href="#">IMPROVER (subproject 1: Sports Utility Vehicles)</a>  <a href="#">IMPROVER (subproject 3: Cruise control)</a>  <a href="#">IMPROVER (subproject 4: Road signs)</a>  <a href="#">Final Report subproject 2</a>

The IMPROVER project is a study commissioned by the European Commission (Directorate General Energy and Transport) to examine the following aspects of road safety:

- the impact on road safety due to the increasing use of sports utility and multipurpose vehicles,
- the impact assessment of measures improving the road safety of light vans,
- the impact of Cruise Control on traffic safety, energy consumption, and environmental pollution and
- the harmonisation of road signs and road markings from a safety point of view.

According to the tasks the project is divided into four subprojects.
