VAMOS

Volunteers always on the move for road safety

Project details	
Domain	Training, education and campaigns
Duration	from 01/08/2006 until 31/07/2009
Website	
Other sources	Cordis

VAMOS is a European wide initiative aiming to set up effective instruments and methods for the implementation of road safety activities in the participating countries, focusing on vulnerable road users.

As a result, local organizations of volunteers will be set up, training modules and educational materials will be elaborated, training of volunteers, experts and trainers for road safety preventive activities will be organized and preventive as well as dissemination activities will be carried out in selected communities.
