

Dear Sir,

I'm not sure why the EU has this anti motorcycle anti British kick at the moment it is just disgraceful.

If you want to bring in these draconian rules against British motorcyclists then I suggest you bring back this 'hidden' survey and ask the British public what they really want . I'm sure it will not be EU roadside MOT inspections and hounding of the motorcycling community in the UK

Yours, a very very disaffected member of the EU
